International application No.

PCT/AU2005/000097

Box No. V **Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

1. Statement

Novelty (N)	Claims	YES
	Claims 1 – 15	NO
Inventive step (IS)	Claims	YES
	Claims 1 – 15	NO
Industrial applicability (IA)	Claims 1 – 15	YES
	Claims	NO

2. Citations and explanations:

Citations:

- a) WO 2001/46833
- b) WO 2000/17797
- c) WO 2001/33449
- d) US 6647374
- e) US 6647373

Novelty (N) and Inventive Step (IS):

Citations a) and b) disclose all of the essential features of the invention as claimed. These citations each disclose an online auction, traditional or reverse, with the option for bidders to set a default maximum or minimum bidding price. These citations also disclose the selection of a bidder or supplier through parameters other than price only. Citation c) discloses all of the essential features of claims 1 to 3, 5 to 9, and 14. This citation discloses an online auction with the option of a default maximum bid. Citations d) and e) each disclose reverse auctions with the rating of bidders or suppliers by a variety of parameters. Combining citation c) with either citation d) or e) clearly discloses all of the features of claims 4, 10 to 13 and 15.

Features such as the first party being a seller and the counterparties competing buyers; and maintaining the confidentiality of a final default bid unless and until it becomes a valid bid are obvious and do not add any novelty conferring features.

The invention of claims 1 to 15 cannot, therefore, be considered to be novel or to involve an inventive step in the light of the above citations.
